

# From Frustration to Freedom in **FOREX** TRADING

**A successful Trader: someone in the top 5%, is just doing the right things at the right time, every time... no guessing, no wishing, no hunches....**

**The wealthy trader is an opportunity seeker who learnt to apply a systematic disciplined framework to their trading, so they can profit month in month out, year after year, through any market conditions....**

## CAN 11 PAGES CHANGE YOUR FINANCIAL DESTINY?

The Response to our 'From Frustration to Freedom in Forex Trading' has been unprecedented. So much so that we would like to thank you and welcome you, plus the hundreds of new traders reading this report for the first time. It's more than we ever expected!

When you signed up to our letter we promised you **rapid success secrets** to Forex Trading so you want to make sure that you read this report carefully because we will tell you exactly how you can create **explosive improvements** in your Forex Trading, the kind of success that other traders can only dream of.

So let's dive in. You and I both know that you are here for a reason and I think I know what that reason is... Maybe you are unsure about how to get started making money consistently from your Forex trading. Or maybe you have already started trading, but you are disappointed with your results so far, and you're just not sure what you need to do to change that. Or maybe you are doing OK, but you know deep down that you could be doing much better and you just don't know what's missing.

If this describes your situation, the very first thing we want to tell you is: **CONGRATULATIONS**, You've made it! You have made an important decision to finally get what you have been searching for: Someone who knows exactly what it takes to succeed in the Forex Markets.

As you probably already know we have been helping traders and investors reach their goals for quite some time, in the past decade we have worked with hundreds of traders and we have learned exactly what it is that traders want:

More money, more freedom in their finances, less stress, in control, spending time on things most important, proud and achieving dreams.

When we ask those same traders how it's really going, the results differ radically from where they want to be:

Not making Money, frequently losing, Embarrassed and concerned by market losses. Worried because if things continue as they are they'll never have what they really want. They are uncertain because they don't know how to fix their situation.

## **This begs the question: WHY?**

Why are so many Forex Traders Struggling? Why are they not making the money to reach their goals? What is missing? And what is the difference between the few traders who do succeed, and the overwhelming majority that FAIL?

There are hidden strategies behind every trading success: every successful money manager. We know because we have worked with many of them.

It was these hidden strategies, the ones that are not often talked about that made all the difference. In fact they are very different from what you have both been sold on and told to do. Yet they are perhaps the most important keys to success that you see from some of the most wealthy and successful traders.

Before we are through they will be yours to use, both to start and to grow your trading success... our trading approach works, no matter how old or young you are, whether you are a small account trader just starting out or a multi billion dollar hedge fund.

The approach we are going to walk you through entails just a few small shifts in your approach, while fully leveraging on your trading strengths and opportunities in the markets: it is not just another 'tactic'.

Our Single Goal at Forex Trading-Pips Signals Program is to allow struggling traders to turn their situation around: to gain an edge over other traders and to achieve Outstanding Risk Adjusted Returns in the shortest amount of time possible. That's what we do, that's all we do.

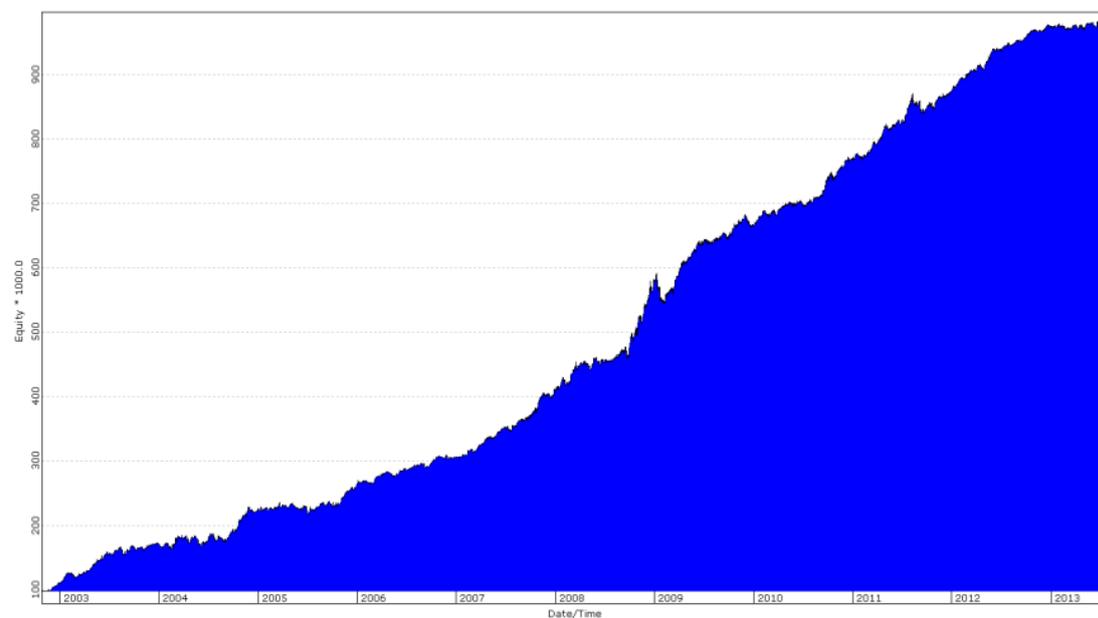

We help traders who want to get rich, but have no clear proven plan, immediately start trading with a proven plan, an edge, a strategy that works.

The clients we have, the success stories we hear from our clients, all happen when you stop trading without a plan, and start following a proven system. And here's why:

The financial markets are a zero sum game. This means for every trader who wins, there is a losing trader on the other side of their trade. Reliable data shows that over 90% of traders lose money in the Forex markets, and that the money lost by those traders goes straight into the pockets of the 10% of traders who win!

By being strategic, trading becomes easy. Of course there will be losses, we are not in magic land that other Forex vendors would have you believe, but we will make sure that you have an edge over 95% of all other traders over time and our results prove this.

We want to share with you now our most recent performance report from our Forex Signals Program. This is the combined performance of all Trading Signals in our Program: Trend Following, Weekly Volatility Breakouts, Friday Breakouts, Daily Intermarket and Intraday Intermarket Systems. We must point out here that past performance doesn't guarantee future results and we show you these results not to impress you, but to impress upon you the importance of disciplined trading, and only trading with a proven statistical and mathematical edge at the right time, every time, in your trading.

Our Forex strategies have done this, more than anyone else, anything else: we have turned more beginning traders into successful traders than anybody.

After helping hundreds of traders over the past 13 years, we have discovered that there are 3 major barriers to trading success and we are going to walk you through these barriers and help you break them down, but first let us tell you a little more about us...

**Forex Trading-Pips is a Global Investment Advisor and Asset Manger** with a long rich history specialising in quantitative futures and foreign currency trading (FX). Founded in 2000 our Investment Management and Advisory Program is dedicated to producing superior risk adjusted returns for our worldwide customer base and employees by adhering to mathematical and statistical methods in the Forex and Financial Markets. All of our programs are quantitative, statistical and 100% systematic.

## **Forex Trading-Pips Signals Program**

**A Proven System that allows smart Forex traders to quickly Gain an Edge Over 95% of all other traders in the Markets, Eliminate Wasted Effort, and Put in the best performance possible in your trading. So you gain Superior Returns, with Less Risk, and More Control**

While we enjoy working with our Investment Management Program, our real satisfaction comes from helping our private clients move from a failing trading operation to skyrocketing levels of success using the latest statistically proven quantitative methods. Many of our clients on our Signals Program were previously failing in their trading, consistently losing.

Think about where you are right now...Think about that kind of performance you are getting, and exactly where you are in your trading journey.

So Why do most Forex traders fail... let us return to the 3 reasons 90% of all traders fail.

### **The 3 Major Barriers to Trading Success**

- **Barrier Number 1**  
Trading without a Proven Mathematical and Statistical Method which is Adaptive to market change.
- **Barrier Number 2**  
Unsound Risk Control: Erratic position sizing, emotional over-trading, chasing 'missed' moves.
- **Barrier Number 3**  
Information Overload: Cognitive dissonance, fixation on news, endless searches for the 'holy grail'.

Remember, if you are not happy with your trading performance, if you are consistently losing, if you feel like the market is overpowering you, then remember: **it's not you, it's never been you, it's your method**: you have what it takes, it's a small shift but it makes a world of difference.

## **What we are going to share with you now is important...**

The traits that make you successful in everyday life will make you fail as a trader.

### **'Success Traits' that make you fail:**

The need to be 'right'. Many failing traders have an obsession over winning percentages. A reluctance to take a loss by holding on to losers has killed more aspiring traders than any other market phenomenon.

Stop thinking wrong and start to think like a successful trader. Tell yourself, **it's not me, it's my approach**: change your approach and you will change your results.

Everything seems a lot more difficult and less effective than promised when you are starting out, and even experienced traders are struggling in today's markets .... These are market realities that everyone has to deal with. There are answers to these problems and we will go into the detail of each of these discoveries. But first we want to take a look at...

## **The Biggest Frustrations facing all Traders in today's markets...**

**Frustration 1:** Government Policy and Central Bank Intervention, Whipsaw Volatility, Out of control trading losses.

**Frustration 2:** Stop runs by HFT algorithms and other market price manipulators

**Frustration 3:** Information Overload, Cognitive Dissonance, News flow running 'out of sync' with market price action.

**Frustration 4:** Unable to hold positions for the duration of a move, choppy noisy markets causing 'forced exits'.

**Frustration 5:** Endless Search for the Holy Grail, Snake Oil Scam vendor Systems, Seminars, Books, Audio, Trading Software, that doesn't work and never will.

These problems and frustrations are REAL... they are not solutions, they are **process problems**. Time spent here will not make you successful yet this is the pattern that most traders are stuck in... and do you know what most traders solutions to these problems are?

Increased activity, account churn, obsessive fixation on news, indicators, gurus, tips, tricks and 'magic'!

### **You're following the wrong Strategy - STOP!!!**

Instead of focusing on all of these things, the successful approach is ask: what are the fewest things you need to focus on to get your result.

### **You Need a Complete and Proven Trading Solution, NOT Another tactic**

The secret to successful trading is doing LESS. If you are having problems with your trading you need to answer these questions:

1. Are you absolutely clear when to enter a trade?
2. Are you absolutely clear when to exit a trade?
3. Are you absolutely clear 'how much' to buy or sell?

All trading success can be reduced down to these three crucial components, these simple exact steps that will take you from where you are to where you want to go. Let us be clear: if you have no clear plan for entry, exit and position size, then you have no plan for your trading, and you will fail.

Most people believe that you just need common sense to make money in trading. They are wrong! It takes 'uncommon' sense, and the proof is 90% of traders fail!

According to research released from OANDA broker the vast majority of traders who fail do so due to the **Absence of a Sound Trading Plan**.

The irony is that traders who trade without a proven plan, are getting the exact opposite of what they were hoping and dreaming for when they started trading. Think about how tragic this is; the time spent trading, the money put into trading, all the sacrifices, and instead of achieving the lifestyle and freedom that you desire

the overwhelming majority of traders end up worse off financially and mentally, just because these traders didn't seek out the right advice and guidance.

We said at the beginning of this presentation that you can make more, a lot more than you are doing now, and now we'll show you how it's actually done, and you will see no matter where you are this is the path to getting everything you ever wanted. Meaning even if you haven't started yet, this is the path for you.

So let's take a look at each of these pillars to really find out how you need to shift.

## **THE 3 STRATEGIC PILLARS OF SUCCESS**

### **Strategic Secret Number 1**

Trading only when you can win: only when you have a clear, identifiable, proven mathematical edge, when opportunities are at their greatest. Do what you can do best, play the game when the odds are stacked in your favour so you can earn incredible profits and live the lifestyle that you desire.

Trading is the biggest game that you will ever play for money... doesn't it make sense to only play the game when you can win?

### **Strategic Secret Number 2**

Outstanding Risk Management: Entry, Exit and Sizing of trades with extreme precision and discipline.

How certain are you when you trade? Can you execute without indecision, or do you have trouble pulling the trigger? Do you suffer from doubt and anxiety when you open trades? How certain are you that you are trading for the right reason with strategies that work?

### **Strategic Secret Number 3**

Adapting and evolving to ongoing changes in the markets through the implementation of cutting edge technology, research, and development

Remember if you are unhappy with your trading results, trying the same things harder is not going to help.

"The definition of Insanity: Doing the same things again and again, and expecting a different result." Albert Einstein

## Success is possible, but only with the right beliefs:

### Beliefs that Create Failure

- I must make money on every trade
- I must make money every single day
- I'm not smart enough to make money trading

### Beliefs that create success

- Losses are OK as long as they are **managed risks** and represent a small percentage of my total account.
- Markets are in a constant state of flux, I must remain **adaptive** to market change.
- Anyone can succeed with the right **mindset** and **strategy**.

## Short cut the time it takes to reach your Goals with our Proven Forex Signals Program.

Sidestep obstacles standing in your way, start trading with a proven success formula and reclaim profits you are leaving lying dormant. We will Show you how to boost your trading edge and become the dominant player in the market with immediate momentum in your trading performance. Our program will pinpoint with laser like precision exactly where you can get the best returns so that you can regain your confidence and passion for trading

Ask yourself, and you really need to be honest with yourself, if you just keep doing what you've already been doing, 30 days from now, are you really going to be any different from where you are today, are you really going to have your trading performance on track...to have increasing momentum in your trading and living your trading dream?

And if not, the only thing you can do right now is to make a decision to let us help you, remember we understand what it's like to struggle in the market, we've been where you are, we understand the fear, even the scepticism you may feel right now, we are going to do everything we can to make sure that you get everything you want, to make sure that when you have a question, we'll be here to answer it. If you are hesitating, don't hesitate, you are one step away from vaulting your Forex trading to higher and higher levels of success with a proven process of trading.

If you think you would benefit from our [Forex Signals Program](#), let me tell you a few things. Some people have asked if this program is for beginners. The answer is maybe. It really depends

on your level of ambition and work ethic. Our program is not for those who are lazy, or who are looking for a shortcut to riches. It doesn't work like that. Our program is for those who are serious about learning how to build a successful Trading operation, from the ground up.

You will discover exactly how to think like a successful trader. The skill set you will gain will be with you for the rest of your life. It is an "education" in every sense of the word. You will be required to think.

If you are a beginner in terms of work ethic or ambition, our Signals are not for you. But if you want to receive a once in a lifetime opportunity to build a successful trading business, this is probably the best [Program](#) you will ever have the opportunity to participate in. Yet, if you are not serious about trading, and are desperate for money, please don't join our program. Go out and get a real job to support yourself.

Building a successful trading business does not happen overnight; you must realize that and take responsibility for your current obligations. We know that may sound harsh, but we need everyone to clearly understand who this program is designed for. Since we can't help everybody and spots are limited, we do not want the wrong people to take the spots of those who are better suited for the program. So how do you know if you're right for our Signals Program? [By taking a risk-free test drive](#). You can try it for 7 days and see for yourself. You can cancel at the end of the trial and get a full refund if you wish, or continue and get the trading education and support you'll need to succeed.

There's more Uncommon Sense to come.

To your Success

Joe Oliver

*Futures, ETF and FX trading involves substantial risk and you can lose money. Please think carefully before investing. Do not invest or use money you can't afford to lose. The trading ideas presented are for information purposes only and in no way constitute an investment approach.*

*U.S. Government Required Disclaimer – Commodity Futures Trading Commission  
Futures, Currency and Options trading has large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to Buy/Sell futures or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this web site. The past performance of any trading system or methodology is not necessarily indicative of future results.*

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT/SYSTEM WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM. ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THAT THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ALSO ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS. TRADING INVOLVES RISK OF LOSS AND IS NOT SUITABLE FOR EVERYONE.
